# Index to Volume XXVI

*Abbreviations*:—'(P)' refers to the summaries of papers read at the General Meetings of the Association of Clinical Pathologists or at other meetings or symposia. '(L)' refers to letters to the Editor.

Abdomen, inflammatory pseudo-tumours (plasma cell granulomas) of, 943
ACHONG, B. G.: EB virus and other diseases (than infectious mononucleosis) (P), 988
Acid from lactose tests and ortho-nitrophenol test for β-galactosidase production, results in 30 genera of Gram-negative bacteria, 821
—— phosphatase determinations in diagnosis of prostatic cancer (P), 387
Adenocarcinoma of lung, mucin detection in, comparison of different methods (P), 983
Adenomatous polyps of colon and rectum, pseudo-carcinomatous invasion in, 25; (P), 986
Adenosine diphosphate, platelet reactivity to, during stressful diagnostic procedures, 958
Adenovirus typing, rapid, by immunoelectron microscopy, 914
Adrenal cortex, zona glomerulosa of, spironolactone bodies in, fine structure and morphogenesis of, 949
ALAVAIKKO, M., ELFVING, R., HIRVONEN, J., and JÄRVI, J.: Triglycerides, cholesterol, and phospholipids in normal heart papillary muscle and in patients suffering from diabetes, cholelithiasis, hypertension and coronary atheroma, 285
Albumin metabolism, evaluation of $^{131}$I-labelled albumin for study of, 499
Alcoholic (Mallory's) hyaline in primary biliary cirrhosis, 340
Aldosterone, urinary, radioimmunoassay of, simplified method for, 628
ALEXANDER, F., LANNIGAN, R., and BULL, R.: Clinical, light, and electron microscopy findings in idiopathic haematuria, 750
Alkaline phosphatase determinations in diagnosis of prostatic cancer (P), 387
ALLEN, B. W. *See* MITCHISON, D. A., ALLEN, B. W., *et al.*
ALLEN, J. G. *See* GOLDBERG, D. M., RUSSELL, R. I., *et al.*
ALMEIDA, J. D., GIOANNINI, P., SCALISE, G., and HARRISON, C. V.: Electron microscope study of a case of Australia antigen-positive chronic hepatitis, 113
Aluminium containers for storage of blood in liquid nitrogen for immunization of Rh- volunteers, development of, 550
Aminoaciduria, branched-chain, bogus (L), 313
δ-Aminolaevulinic acid, urinary, determination of, one-tube method for, 800
Ammonia, plasma, estimation of, ion specific electrode method for, 802
Amniotic fluid cells, culture of, selection of method for, 721
Amphotericin B sensitivity studies on blood isolates of *Candida* from burned patients, 405
Ampoule stoppering under vacuum or dry nitrogen conditions, device for, 381
Amylase and related enzymes, serum levels in diabetic ketoacidosis (P), 985
Amyloidosis in chronic granulocytopenia, case of, 592
Anaemia, haemolytic, acute, associated with polyagglutinability of red cells, 868
——, ——, ——, with positive Donath-Landsteiner reaction, complicating infectious mononucleosis, 332
Anaerobiosis, simple economical method for, 238
ANDERSON, C. K.: Pyogenic granuloma of the urinary bladder (P), 984
ANDERSON, G. S., and PENFOLD, J. B.: An outbreak of diphtheria in a hospital for the mentally subnormal, 606
ANDERSON, J. C. *See* ROGERS, B. T., ANDERSON, J. C., *et al.*
ANDERSON, J. D.: Factors affecting transfer of antibiotic resistance between Gram-negative bacteria in the human intestine (P), 985
ANTHONY, P. P.: A guide to the histological identification of fungi in tissues, 828
——, VOGEL, C. L., and BARKER, L. F.: Liver cell dysplasia: a premalignant condition, 217
Antibiotics and heparin in intravenous infusions, 742
——, beta-lactam. *See* FL 1060
——, resistance to, in *Staphylococcus aureus*, genetic basis, epidemiology and future significance of, 899
——, —— ——, transfer between Gram-negative bacteria in intestine, factors affecting (P), 985
——, sensitivity of Bacteroides species to, 738
Antibodies, microsomal, thyroid, tanned red cell test for, evaluation of, 623
——, platelet, detection by hyperaggregation effect in idiopathic thrombocytopenia and after multiple transfusions in leukaemia, 697
——, reticulin, detected in sera by immunofluorescence, types of, 841
——, to food proteins in serum in aphthous ulceration and other oral diseases, 371
——, white and red cell, association in sera, 367
Antibody, hepatitis B, detection in blood donors, automated passive haemagglutination technique for, 343
——, virus-neutralizing, estimation in microplates, 17
Anticoagulant therapy, control of, British system for, quality control trials in (P), 983
—— ——, —— ——, comparison of one-stage prothrombin time and partial thromboplastin time tests in, 73
——, ——, long-term control of, partial thromboplastin time test in (L), 383
—— ——, oral, long-term, efficacy of, and thrombotic tendency demonstrated by laboratory tests (P), 983
Anticoagulants, oral, freeze-dried plasma from patients on, stability and suitability for calibration of thromboplastins, 857
Anti-gamma haemolysin test in diagnosis of staphylococcal osteomyelitis, 409
Antigen, Australia. *See* Australia antigen
——, carcinoembryonic, in serum in diseases of liver and pancreas, 470
——, hepatitis B, detection in blood donors, automated passive haemagglutination technique for, 343
——, —— ——, electrofocusing of, technique and application to radioimmunoassay (P), 386
——, leptospiral, genus-specific, for possible use in laboratory diagnosis, 7
Antigens, detection by crossed immunoelectrophoresis, simplified procedure for, 160
——, fibrinogen, detection with two latex techniques applied to urine concentrates, 760
——, lymphocyte, as diagnostic aid in ankylosing spondylitis (P), 387
Antimycotic activity of 5-fluorocytosine, 167
Antiseptics, six, in preoperative sterilization of perineum, comparison of, 921
Antithrombin-III deficiency in Dutch family, 532
Anti-thrombotic drugs, assessment of, Chandler's thrombi as agents for, 452
Antitrypsin activity of serum, characteristics of, 48
Aphthous ulceration, serum antibodies to food proteins in, 371
APPAY, M. D. *See* BARIÉTY, J., RICHER, D., *et al.*
Appendix, vermiform, mucinous cystadenoma and cystadenocarcinoma of, in relation to mucocele and pseudomyxoma peritonei, 413
Araldite-embedded osmium-fixed tissues, methylene blue and azure-2 as stains for lipid in, 546
Argyrophilic plaques and neurofibrillary tangles, screening with Congo red and polarized light for, 241
ARMSTRONG, E. M. *See* MORE, A. I. R., and ARMSTRONG, E. M.
Asbestos, exposure to, and mesothelioma, epidemiological and quantative relationships on Tyneside, 832
——, fibre concentration, pulmonary, optical and electron microscopic determination and relation to pathological reaction, 224
ASHCROFT, T.: Epidemiological and quantitative relationships between mesothelioma and asbestos on Tyneside, 832
——, and HEPPLESTON, A. G.: The optical and electron microscopic determination of pulmonary asbestos fibre concentration and its relation to the human pathological reaction, 224
Aspiration biopsy, fine-needle, service for (P), 390
ASSENDELFT, P. M. BLOM VAN. *See* BLOM VAN ASSENDELFT, P. M.
Association of Clinical Biochemists: Reports and Bulletins, 72, 125, 197, 277, 339, 421, 510, 715
Association of Clinical Pathologists: 90th General Meeting, 386
—— —— —— —— : 91st General Meeting, 982
Atheroma, coronary, triglycerides, cholesterol and phospholipids in heart papillary muscle in, 285
ATKIN, N. B., and PETROVIĆ, I.: Variable sex chromatin pattern in an early carcinoma of the bladder, 126
Australia antigen and liver cell dysplasia in patients with normal, cirrhotic and cancerous livers, 217
—— —— and primary biliary cirrhosis, 335
—— —— carriers, asymptomatic, biochemical, histological and serological studies in (P), 389
—— ——, distribution in sera of serologically positive blood donors and patients with serum hepatitis, electron microscopic study of, 209

—— —— -positive hepatitis, chronic, electron microscope study of case of, 113
——. *See also* Hepatitis B antigen
AutoAnalyzer, Technicon II systems, comparison with kinetic methods for transaminase assay, 42
Automation in pathology, effective use and limitations of, 886
Azotaemic renal osteodystrophy, quantitative study on iliac bone in, 83

*Bacillus cereus*, beta-lactamase from, relative susceptibility of cephalosporins to, 599
BACKHOUSE, J. L. *See* GARNER, M. F., BACKHOUSE, J. L., *et al.*
Bacteraemia in burned patients (P), 388
Bacteria, commensal, beneficial and harmful effects of, 811
——, contamination of platelet concentrates stored at 20°C by, 401
——, Gram-negative, in intestine, transfer of antibiotic resistance between, factors affecting (P), 985
——, ——, results in 30 genera of ortho-nitrophenol test for β-galactosidase production and acid from lactose tests, 821
——, isolation from clinical specimens by Selectagerm method, 184
Bacteriological sampling of hair, technique for, 448
—— —— of surfaces by direct application of culture media, use of disposable plastic syringes for, 977
Bacteriuria, chemical (Uriglox) test for, clinical trial of, 375
*Bacteroides fragilis*, bactericidal activity of metronidazole against, 393
*Bacteroides* species, incidence and isolation from clinical material and sensitivity to antibiotics, 738
BALLANTYNE, D., and JUBB, J. S.: Type III hyperlipoproteinaemia and sinking prebeta lipoprotein (L), 552
——, JUBB, J. S., MORGAN, H. G., and LAWRIE, T. D. V.: Study of the pedigree of a patient with type III hyperlipoproteinaemia and sinking prebeta lipoprotein, 163
BALLANTYNE, F. C., and FLECK, A.: Experience with a commercial preparation of $^{131}$I-labelled human albumin for study of albumin metabolism, 499
BANNERMAN, C. M., BLACK, W. A., and BLACK, P. A.: A technique for bacteriological sampling of hair, 448
——, and ROSS, C. A. C.: Trypsin-treated human erythrocytes for rubella haemagglutination inhibition tests (L), 807
BARCLAY, R. S. *See* VETTERS, J. M., and BARCLAY, R. S.
BARIÉTY, J., RICHER, D., APPAY, M. D., GROSSETETE, J., and CALLARD, P.: Frequency of intraendothelial 'virus-like' particles: an electron microscopy study of 376 human renal biopsies, 21
BARKER, L. F. *See* ANTHONY, P. P., VOGEL, C. L., *et al.*
BARON, D. N.: SI units in pathology: the next stage, 729
—— : Simple slide-rule conversion between hydrogen ion concentration and pH values, 726
BARROWCLIFFE, T. W. *See* HUGHES, J., WILSON, E., *et al.*
BARTLETT, R. C.: Candida infections (L), 694
BARTON, A. P., and WINZAR, J. A.: Simple economical anaerobiosis, 238
BEARD, C. H. *See* MAMATTAH, H. J. K. M., BEARD, C. H., *et al.*
BECROFT, D. M. O., DIX, M. R., GILLMAN, J. C., MACGREGOR, B. J. L., and SHAW, R. L.: Benign sinus histiocytosis with massive lymphadenopathy: transient immunological defects in a child with mediastinal involvement, 463
Bedpan, disposable and self-supporting, with improved disposal unit, 925
—— systems, disposable, bacteriological hazards of, 146
BELL, T. K. *See* SINNIAH, R., BELL, T. K., *et al.*
BENCOSME, S. A., and LECHAGO, J.: Staining procedures for the endocrine cells of the upper gastrointestinal mucosa: light-electron microscopic correlation for the gastrin-producing cell, 427
BENNETT, B., OGSTON, D., CRAWFORD, G. P. M., and DOUGLAS, A. S.: The fibrinolytic enzyme system in hypertension, 351
Beta haemolytic streptococci, isolation of, gentamicin as selective agent for, 154
Beta-lactam antibiotics. *See* FL 1060
Beta-lactamase from *Bacillus cereus*, relative susceptibility of cephalosporins to, 599
—— preparation, inactivation of penicillins and cephalosporins by, 596
BETTS, C. A., and STUART, B.: Determination of serum total iron-binding capacity (L), 457
Biliary cirrhosis, primary, and Australia antigen, 335
—— ——, ——, Mallory's hyaline in, 340
BINNIE, P. *See* BLACK, W. A., HATCH, L. A., *et al.*
Biochemistry, clinical. *See* Clinical biochemistry
Biopsy, aspiration, fine-needle, service for (P), 390
——, renal, frequency of intraendothelial 'virus-like' particles in, electron microscopy study of, 21
——, ——, in idiopathic haematuria, clinical, light and electron microscopy findings in, 750
BIRCHALL, G.: A simple aid to the administration of blood product concentrates (L), 552
BIRD, T., and STEPHENSON, J.: Acute haemolytic anaemia associated with polyagglutinability of red cells, 868
——, ——: Evaluation of a tanned red cell technique for thyroid microsomal antibodies, 623
BLACK, D. A. *See* BANNERMAN, C. M., BLACK, W. A., *et al.*
BLACK, W. A., HATCH, L. A., BINNIE, P., and NEWBERRY, J.: *Serratia marcescens* infection in a general hospital (P), 984
——, and VAN BUSKIRK, F.: Gentamicin as a selective agent for the isolation of beta haemolytic streptococci, 154
——. *See also* BANNERMAN, C. M., BLACK, W. A., *et al.*
BLACKBURN, E. K.: Haematology: trends and opportunities, 881
——. *See also* PRESTON, F. E., MALIA, R. G., *et al.*
Bladder, carcinoma of, early, variable sex chromatin pattern in, 126
——, urinary, pyogenic granuloma of (P), 984
BLOM VAN ASSENDELFT, P. M., KOOIKER, C. J., DORHOUT MEES, E. J., and HAMELEERS, A. J.: Renovascular hypertension in three children from one family, 359
Blood cell counting machines. *See* Coulter counter
—— coagulation, intravascular, disseminated, with venous infarction of myocardium following coronary vein thrombosis in newborn child, 364
—— ——, ——, in *E. coli* septicaemia, 120
—— ——, whole, and experimental hypercalcaemia, 616
—— counts, data processing of results for quality control off line (P), 391
—— culture, effect of temperature of culture medium on outcome of, 529
—— donors, Australia antigen-positive, distribution of antigen in sera of, electron microscopic study of, 209
—— ——, hepatitis B antigen and antibody in, detection by automated passive haemagglutination technique, 343
—— in malignant malaria, giant nuclear masses in (P), 982
—— indices determined by Coulter S counter, interrelationships and stability of, 700
—— isolates of *Candida* from burned patients, speciation and amphotericin B sensitivity studies on, 405
—— lysis time, dilute whole, relationship to fibrinolytic activity of blood and effect of change in plasma fibrinogen, 189
——, oxytetracycline estimation in, fluorimetric procedure for, 548
—— platelet antibodies, detection by hyperaggregation effect in idiopathic thrombocytopenia and after multiple transfusions in leukaemia, 697
—— platelets, aggregation with Ristocetin in diagnosis of von Willebrand's disease (P), 982
—— —— and collagen, interaction of, method for preparing and staining for microscopic observation, 78
—— ——, concentrates stored at 20°C, bacterial contamination of, 401
—— ——, function, coagulation and fibrinolysis, effect of intravenous prostaglandin $E_1$, 354
—— ——, isolation of, simple method for, 635
—— ——, reactivity to adenosine diphosphate during stressful diagnostic procedures, 958
—— product concentrates, administration of, nylon catheter mounts for transfusion bags in (L), 552
—— serum. *See* Serum
——, storage in liquid nitrogen for immunization of Rh- volunteers, development of aluminium containers for, 550
—— stored in liquid nitrogen, apparatus for thawing, 455
——, whole, clotting time method for bedside control of heparin therapy, 893
——, ——, folate of, simplified assay with *L. casei* ATCC 7469 for, superiority over assay with chloramphenicol-adapted strain, 963
—— zinc levels in paraplegia, 773
BLUMBERG, B. S. *See* MACSWEEN, R. N. M., YEUNG LAIWAH, A. A. C., *et al.*
BLUME, H. D. *See* PEPPER, D. S., BLUME, H. D., *et al.*
